

MEDIA RELEASE

New app for governance, risk, compliance & internal audit

'Protiviti Mobiliti' brings the latest content, executive events and career opportunities to mobile devices

Sydney, December 2013 – Global consulting firm Protiviti has launched [Protiviti Mobiliti](#), a new mobile tablet application delivering its experts' latest insights and thinking on governance, risk, compliance and internal audit directly to users' mobile devices.

"Our new Protiviti Mobiliti app is designed to meet the needs of on-the-go professionals seeking insights to improve their businesses by providing them with Protiviti's latest reports, surveys, podcasts and more through a customised mobile experience," said Protiviti managing director Mr Mark Harrison.

The new app features Protiviti's latest thought leadership content, including flash reports, research, FAQs and case studies, in addition to multimedia content such as blogs, webinars and videos. Protiviti Mobiliti allows users to browse content by popularity, industry and topic, with seamless integration for email and social media sharing. Users can also choose to be notified when new content is published, and they can create a personal thought leadership library – a repository of saved items available on- or offline.

"We've seen significant growth in the number of visitors accessing our information on the web through mobile devices," Mark said. "To accommodate this shift, we've launched Protiviti's mobile initiative with the key goals of improving the user experience and creating instant, effortless access to our subject-matter experts' thought leadership materials."

Connect to Protiviti Events and Job Opportunities

App users can also find Protiviti events and speaking engagements (some offering CPE credit) in their geographic areas through built-in location services. Job seekers can learn about Protiviti careers and search open positions for both recent graduates and experienced professionals. Job listings can be sorted by type, title or location. For more information about Protiviti Mobiliti, visit www.protiviti.com/mobiliti.

Protiviti's new app is now available for the iPad® and Android tablets and can be downloaded for free through the [Apple App Store](#) and [Google Play](#). A mobile phone app will be available for iOS and Android platforms in early 2014.
